## Winter – are you ready?

This year, winter in Saskatoon came quickly! We already have over 20 cms of snow and our temperatures are dropping. Students in Saskatoon might have also noticed how much shorter the daylight hours adding to the challenge of staying warm and safe.

It is important that students are prepared for the weather even if you are outside for just a short time. Some of you might have attended John's session on dressing for winter. [This website](#) offers information about the risks in extreme cold and how to be prepared. Stay warm!

## USask Community Centre

Looking for a place to make connections and participate in peer-to-peer health education, spiritual guidance and support? The USask Community Centre is a wonderful place to be (and it's warm!).
